

LDN FIXTURE

DC SOLAR POWERED LIGHT FIXTURE

London Fixture Overview

The LDN London light fixture assembly is a acorn style fixture and comes complete with LEDs and driver used to operate the fixture from the solar charged batteries. The LDN fixture is typically used for roadways, parking lots, pathways and perimeters and typically uses our LB London Bracket which is a decorative side of pole style fixture bracket 16" wide to attach to a pole below the solar power assembly.

SEPCO solar light fixtures are used in our complete solar lighting systems and includes the solar power assembly with mounting, battery assembly, fixture and fixture mounting bracket. SEPCO can also provide a pole to meet wind load specifications.

Features & Benefits:
