

CIM FIXTURE

DC SOLAR POWERED LIGHT FIXTURE

Cimarron Fixture Overview

The Cimarron fixture assembly is a shoebox style fixture and comes complete with LEDs and driver used to operate the fixture from the solar charged batteries. The CIM fixture is typically used for roadways, parking lots, pathways and perimeters and uses a standard 4" straight arm and is included with the fixture; no additional options are available, to attach to a pole below the solar power assembly.

SEPCO solar light fixtures are used in our complete solar lighting systems and includes the solar power assembly with mounting, battery assembly, fixture and fixture mounting bracket. SEPCO can also provide a pole to meet wind load specifications.

Features & Benefits:
