

ERX FIXTURE

DC SOLAR POWERED LIGHT FIXTURE

ERX Canopy Fixture Overview

The ERX fixture assembly is a canopy style fixture and comes complete with LEDs and driver used to operate the fixture from the solar charged batteries. The ERX fixture is typically used for buildings, pavilions, stairwells, entryways, perimeters, and corridors and mounts to any wall or ceiling with the solar power assembly mounted nearby on a roof or pole.

SEPCO solar light fixtures are used in our complete solar lighting systems and includes the solar power assembly with mounting, battery assembly, fixture and fixture mounting bracket. SEPCO can also provide a pole to meet wind load specifications.

Features & Benefits:

- The ERX fixture uses solid state / light emitting diode (LED) light source
- 12 VDC electronic dimming drivers
- Die cast aluminum housing with frosted glass lens
- Multiple light distributions available

APPLICATIONS: Buildings, Pavilions, Stairwells, Entryways, Perimeters, Corridors

HOUSING: Cast Aluminum

FINISH: White or Rust

OPTICAL ASSEMBLY: Frosted glass lens

LAMPING: 5 – 15 Watt LED

DIMENSIONS: 10" Round x 5" High

WEIGHT: 5 lbs

EPA: .50 sq ft

Project Name: _____

Project Notes: _____

Wattage - _____

Distribution - Round

Color - _____

Finish - _____
